

Bayers Road: Halifax Shopping Centre to Connaught Avenue

What will change?

- 1 The existing channelized right turn from Connaught Avenue to Bayers Road will be removed.
- 2 A new westbound bus bypass lane will be added to allow buses to (a) bypass the traffic signals at the Halifax Shopping Centre intersection or (b) make a left turn to the Halifax Shopping Centre via a dedicated turn lane and signal phase.
- 3 One of the two left turn lanes to the Halifax Shopping Centre will be removed.
- 4 Right turn movements from Bayers Road to Micmac Street will no longer be permitted to eliminate conflicts with buses proceeding through in the bus lane.

Proposed

Looking to the east on Bayers Road toward Halifax Shopping Centre and Connaught Avenue.

- 5 A paved 3.0m multi-use pathway for walking and cycling will be added to the south side of Bayers Road between Romans Avenue and George Dauphinee Avenue.
- 6 Right turn movements from Bayers Road to George Dauphinee Avenue will no longer be permitted in order to reduce conflicts with buses proceeding through in the bus lane, maintain transit priority through this section, and improve the connection between the multi-use pathway and the proposed Local Street Bikeway on George Dauphinee Avenue.
