

KEY DIRECTIONS:

Relocate the Parks maintenance and greenhouse facilities to create new open green space around the Power House at the corner of Bell Road and Sackville Street.

Permit paid entry spectator events at the premier field, while maximizing public access, pedestrian movement, and available open space.

Build a new multi-purpose field house for the Wanderers field that includes public washrooms and access for the Lawn Bowling Club.

Reorganize uses to improve functionality and enable sharing of facilities, parking and access points.

Manage the Wanderers Field for a wide range of premier sports usage, from the current professional soccer team to high school championships and tournaments.

Recognize the traditional use of the Wanderers Grounds by the Junior Bengal Lancers and the Wanderers Lawn Bowling Club, but should these clubs terminate their leases, the facilities will revert to public open space.
