

Concept One: A Place to Play

This scenario looks at the park as a place for having fun. Perhaps it's a place to stop on the way to the beach for a round of disc golf or a family picnic.

It introduces novel features like the Spiral Look-Off Ramp which you can walk up or ride your bike to the top for a higher vantage point to view the Cole Harbour Basin and surrounding vista; or the Colossal Climber for people who welcome the challenge of climbing up the steep bank.

There is also a shaped slope for winter sledding and docks to tie up a kayak. Popular shows filmed on location could be recognized on the site. This scenario shows an enclosed off-leash dog area with a flat open lawn for playing fetch. The trail system proposed is single-track for hiking or biking with fitness stops along the route.
