Parkland and Open Space

Existing Conditions

Young District currently lacks sufficient parkland and open space to serve the existing and future population.

- The only park within a 10-15-minute walk from the district is a small neighborhood park in the Hydrostone.
- Fort Needham Memorial Park is about 15-20-minute walking distance from the district. It is also the only large Regional Park with a playground within a reasonable walking distance.

A major deliverable of the Young District project is to identify the appropriate size(s) and location(s) of parkland and open space needed to serve the future population of Young District.
