

MOBILITY

Providing more choices for getting around

Connect People

- » Provide safe spaces for walking, rolling and cycling (Policy M-13)
- » Design streets for people of all ages and abilities (Policy M-14)
- » Require developers to maintain safe and convenient sidewalk connections alongside construction sites (Policy M-31)

Manage Congestion

- » Encourage drivers to avoid peak times and consider sustainable travel modes (Policy M-23)
- » Consider establishing new street connections to support strategic growth, address mobility gaps, improve access to transit, and facilitate emergency access (Policy M-16)

Integrate Development

- » Shape mixed-use and commercial development around access to transit, including future rapid transit (Policies HC-5 and M-39)
- » Balance motor vehicle parking with secure bike parking and car-sharing spaces (Policy M-24)

Improve Rural Mobility

- » Encourage development patterns that support village main streets and a range of mobility options, including active transportation (Policy HC-9)
- » Consider the development of rural walking and cycling routes (Policy M-32c)
- » Support and expand rural public mobility services (Policy M-40)

NEXT STEPS

Implement the Rapid Transit Strategy routes + Complete Street Initiatives

What changes would be needed to make active transportation and transit a more convenient option in your community?
