

KEY DIRECTIONS:

Improve circulation on the North and Central Common by realigning multi-use paths, formalizing prevailing routes, and providing accessible routes to recreation facilities.

Create bicycle and pedestrian friendly crossings that enable convenient and safe linkages with the surrounding network.

Improve the comfort and walkability of streets along prevailing walking routes.

Redevelop Summer Street as an important walking link between the north and south areas of the Common.

Promote important connections through institutional lands.

Strengthen links to destinations beyond the Common, including downtown, the waterfront, and Point Pleasant Park.
