

Themes and Directions

The Themes introduce the main overall topic areas and can be found in the [Content and Webinars tab](#) at the bottom of the page or you may [click on this link](#). There are 11 themes in total which are briefly described and explained or you can read the entire theme in more detail. You may also dive deeper into issue papers that relate to the theme or read further into the background materials that helped to develop the theme.

Public Engagement

Phase 2 of our engagement process closed on July 16, 2021. The feedback we received will help provide focus and direction for future work during the project. You may still access the recorded webinars and [FAQ pages](#).

If you have questions about the Regional Plan Review, you may still reach us at regionalplan@halifax.ca or by phone at 902-233-2501.

Regional Plan Webinars:

The Regional Plan Review team and content contributors hosted live [virtual Q&A sessions](#) on key topics including housing, social policy, climate change, the environment, mobility and long range planning. These events were recorded and posted under the **Q&A Recorded Webinars** sidebar. You may also click on the links below as the videos become available.

Topics included the following:

- [Social Policy Webinar Video](#) – Acting on new partnerships, to rethink our values, and include underrepresented or untold views and histories within our region. You may also access the [presentation slides and the Q&A transcript](#).
- [Housing Webinar Video](#) – Making smart decisions about housing and employment to quickly direct growth to the right places, in a way that furthers our community goals, and builds a healthy, thriving economy. You may also access the [presentation slides and the Q&A transcript](#).
- [Climate Change Webinar Video](#)– Taking action to reduce our emissions and preparing our communities for climate hazards. You may also access the [presentation slides and the Q&A transcript](#).
- [Environment](#) - Strengthening and protecting important natural and cultural places and using them to shape our region's communities. You may also access the [presentation slides and the Q&A transcript](#).
- [Mobility](#) - Linking decisions land use and transportation and organize our transportation system for people by focusing on walking, rolling, and riding. You may also access the [presentation slides and the Q&A transcript](#).
- [Long Range Planning](#) – Generating ideas about how to change and transform as a community as we move towards the future. You may also access the [presentation slides and the Q&A transcript](#).
