

COMMUNITY INFRASTRUCTURE

Investing in public space and infrastructure to meet the needs of communities

Nature Parks

- » Support protection, acquisition, and management of nature parks *(Policy CI-3)*
- » Coordinate with other levels of government on a nature park network *(Policy CI-4)*
- » Ensure compatibility of development adjacent to regional parks *(Policy CI-5)*
- » Limit development within the interior of the Purcell's Cove Backlands *(Policy CI-6)*

Food Security

- » Preserve existing agricultural land used for food production *(Policy CI-23)*
- » Support food production by encouraging green roofs, indoor and vertical farming *(Policies CI-27 to CI-30)*
- » Consider future access to food when updating community plans *(Policy CI-22)*
- » Enable residents to produce and sell their own food in their communities *(Policy CI-25)*

Park System

- » Develop Parks Priority Plan for the region to support community wellness and active living *(Policy CI-2)*
- » Create Level of Service standards to ensure equitable access to parks and outdoor amenities to address gaps in municipal park and community facility network *(Policy CI-7)*

Community Facilities

- » Provide community facilities in an equitable manner, particularly for historically underserved communities *(Policy CI-12)*
- » Collaborate with libraries, schools and emergency services to ensure services are available while planning for future growth *(Policies CI-16, CI-17, CI-20)*
- » Develop strategic infrastructure plan to accommodate future growth *(Policies CI-13, CI-16, CI-17, CI-20)*
